

# MedMinds

Spreading Hope, One Donation at a Time

# Our Initiative

## 1 Our Mission

A small initiative started by three students—Arnav Budharaja, Krisha Kantharia, and Prehaan Parikh. Our primary goal is to collect non-expired over-the-counter medicines and donate them to orphanages and old age homes, providing essential healthcare support to those in need.

## 2 Our Goal

The goal of our initiative is to improve access to essential medicines for underprivileged communities, including orphanages and old age homes. We aim to work at full efficiency by conducting outreach programs to reach as many people as possible across Mumbai, ensuring broader community participation.

# Organizations We Support

## Orphanages

Many orphanages face challenges in providing adequate medical care due to limited resources and funding. This often results in delays in treatment and preventable health complications. To address this, we are donating to **St. Catherine's Orphan Home**, supporting their efforts to ensure better health outcomes for the children in their care.

## Old-Age Homes

Elderly residents in these homes often need specialized medication, which can be both costly and hard to obtain. Our donations aim to ensure they receive the care they need. We are supporting **Samarpan Old Age Home** and **Aayush Old Age Home**, providing essential medications to enhance their quality of life.

# Our Collection Process

1

## Collection Drives

We are organizing donation drives with multiple drop-off locations, collaborating with businesses, schools, and community organizations to expand our reach and impact.

2

## Medicine Sorting & Verification

Our team, which consists of doctors, meticulously sorts the donated medicines, ensuring each item is thoroughly checked for expiration dates and verified for authenticity to maintain safety and quality.

3

## Storage & Distribution

We handle the medications with care and maintain their integrity. Once sorted and verified, we prepare for the distribution process.

# Our Distribution Process

**1**

## **Step 1**

We collaborate closely with our partner organizations to thoroughly understand their specific medical needs and requirements. We collect detailed lists from them to ensure that the donated medicines are aligned with their most pressing needs.

**2**

## **Step 2**

We ensure that the medicines we donate are tailored to the specific needs identified by each orphanage and old-age home.

**3**

## **Step 3**

We personally deliver the medications directly to the institutions.

# Management and Reporting

## **Inventory Management**

We keep precise records of all donated medicines, tracking their expiry dates and noting the contributors to ensure effective management and accountability.

## **Reporting and Acknowledgment**

After distribution, we provide detailed impact reports on our donation activities. Additionally, we issue certificates and receipts upon request to acknowledge contributions.
